cis tuis patrio eleganter expressisti, verumetiam eius in principe rectè erudiendo atq; informando exemplum quamoptimè æmulatus es. Hoc enim se tibi debere Rex maximus non obscure demonstrat, quo te tantis honorum insignibus exornat, nec adhuc ullo se ergà te beneficio sibi satisfacisse arbitratur quandoquidem Aristotelis iudicio, par gratia doctori referri nunquam potest: at Franciam tu quoque vniuersam officio isto tibi mirum in modum deuinxisti. Per te illa verè se beatam ex Platone agnoscit, qui tum fœlices fore ciuitates censuit, quum eis aut docti & sapientes viri imperarent, aut qui imperare cœpissent plurimum studij in doctrina & virtute percipienda collocassent: & tu præclare in rege disciplinæ tuæ tradito nobis sapientiam cum potestate coniunxisti. Etenim sic ineuntis ætatis rudimentum tuo consilio & prudentia moderatus es, ut quum Francia ciuiliū tumultuum procellis ob religionis dissensionem decennio miserè iactaretur, Regis animum tu cum ingenijs istiusmodi conflictantem tanquam clauum gubernator ita regeres, ita à prauarum opinionum erroribus integrum tuereris, ut nec scopulis allideretur nec fluctibus obrueretur respublica. Me quoque iuuat pro virili parte tibi tanti communis meriti causa gratias egisse. At quum hodiè regnum quodammodo tuum censendis & commendandis principi hominum literatorum laboribus in regia obtineas (à qua nemini inuidorum more aditum intercludis) fac obsecro ut te adeò veteris consuetudinis memorem aliquandò ostendas: cuius, qui virtute præditi sunt non facile ob nouam dignitatis accessionem obliuisci solent. Adrianum porro & Robertum industrios muscorum librorum excusores pro tuo erga Musas amore semper commendatos habeto. Bene vale. Parisijs Ex hortis Sanmarcellinis. Cal. Nouemb. ann. 1572
